SCRAMBLE CADDY®

The Ultimate Accessory For Scramble Tournaments

The Scramble Caddy ball retriever is a golf accessory specifically designed for use during scramble tournaments.

Scramble Caddy is unique because it is the only one of its kind that can pick up a golf ball in two different ways: either when stopped or while driving down the fairway.

The Scramble Caddy will easily pick up balls without leaving your golf cart or hanging over the side. Scoop it up polo style, or press down on the ball to pop it into the cup.

Order Scramble Caddy for your next tournament.

- Unique tee gift, ready for logo
- Lightweight but durable
- Weather-resistant materials
- Speeds up play
- Optional cart clip available
- Priced for any budget

Customize your Scramble Caddies with your logo and choice of nine cup colors. We will help you create a fun yet functional tee gift or favor for your golf league, corporate outing, charity event or fundraiser. And because golfers can pick up balls so quickly and safely, it speeds up play so your event will stay on schedule.

As an added bonus, Scramble Caddy retrieves balls from water hazards, a task virtually impossible for suction cups. Never again drop a ball back in the water...once Scramble Caddy has it in the cup, it stays in the cup. Scramble Caddy is also the perfect gift for seniors and other golfers who may have trouble bending down to pick up the ball.

Great for practice rounds and on-course lessons too. Golfers can use it again and again long after your tournament is over. This item is truly one of a kind!
